

October 6, 2023

Dear Selection Committee:

I would like to express my support for the county-wide high-safety and high-comfort bike path that aims to connect the communities in Sanpete County from Fairview to Gunnison. This initiative holds great promise in providing active transportation options and creating a safer and healthier environment for our students and the residents of Ephraim.

As the President of Snow College, I understand the importance of creating a community where students can access everyday destinations conveniently, regardless of their chosen mode of transportation. The proposed bike path not only aligns with our college's commitment to health but also addresses the pressing issues of traffic congestion and overall quality of life in Ephraim.

At Snow College, we believe that the well-being of our students is closely tied to the quality of life in the surrounding community. Providing safe and accessible bike routes around the college and Ephraim City for our students to walk, skate, or bike to their destinations is important to guiding our growth. The establishment of a county-wide bike path network, particularly around Snow College, will undoubtedly enhance the educational experience of our students.

We are excited about the positive impact bike paths around Snow College and within Ephraim will have on our community, and we are ready to participate in its planning and implementation. Snow College is committed to working collaboratively with local stakeholders to ensure the success of this project. I look forward to being a part of this historic project that will inevitably create a brighter, healthier, and more sustainable future for generations to come.

Sincerely,

Stacey Yardley McCliff
President
